By Kristen Kucharski

Name: AfterMath Claim
Science

Where: 4580 Weaver Parkway,
Suite 200, Warrenville

Call: 630-922-1900

Website: www.aftermathclaims.com

In April, Aftermath Claim Science will move their offices from Shuman Road in Naperville to DynaCom Management's Cantera Lakes offices in Warrenville.

AfterMath Claim Science is a privately held corporation, founded in 2003, to help health insurance payers identify and recover claims that were paid in error, reducing the overall cost of health care.

In April, AfterMath Claim Science will move their offices from Naperville to Warrenville for a larger facility and better access to highways. Pictured from left are Brandon J. Berger, principal and founder of Transition Brokers RE; Thomas C. Shupe, founder and chief operating officer of AfterMath Claim Science; and Paul B. Watnes, founder, president and CEO of AfterMath Claim Science. | Submitted

With more than 60 years of technology, claims, operations and recovery experience, the company's guiding philosophy is the application of scientific approaches to the development of specific claim overpayment solutions that deliver greater overall value and annual claim recoveries.

"The company has continually refined its processes, data modeling and service offerings, and is considered one of the nation's leading suppliers of specialized health-care claim auditing and overpayment recovery," says Tom Shupe, founder and chief operating officer.

"Compared to other high-volume, transaction-driven industries like financial services and telecommunications, health-care transactions can be considerably more complex and difficult to price. Combine that fact with the volume of claims that 313 million American residents can generate, and there is quite an opportunity for an audit firm like AfterMath Claim Science."

Hours: 8:30 a.m. to 5 p.m. Monday through Friday
